The Guinness World Record Event-GUVI Geek Network,IITM Research Park

INTERNSHIP EXPERIENCE

Web Development, TEACHNOOK

01/Jun/2021 - 31/Jul/2021

- As a Web Developer Intern, I learned core web technologies such as HTML, CSS, JavaScript, React, and SQL.
- During the internship, I developed a Digital Marketing website, which helped me gain hands-on experience in frontend development and responsive web design.

Web Development Using Django , Edunet Foundation (AICTE)

1/Feb/2024 - 30/Apr/2024

- As a Backend Developer Intern, I worked with Django to build a music web application.
- This project helped me understand backend development, user authentication, and database integration using Django and SQLite.
- I also improved my problem-solving skills by handling real-world application features.

EDUCATION

Science - 7.2

Hi-tech higher secondary school ,Jajpur,Odisha
2018 - 2020

Bachelor of Technology (B.tech) - 7.1

GIET UNIVERSITY, Gunupur,Odisha
2021 - 2025

PROJECTS

Fitness Website

04/Jun/2024 - 05/Aug/2024

- The technologies used include React, Bootstrap, and MongoDB.
- The operating system used is Windows.
- Developed a fitness website using React for the frontend, Bootstrap for styling, and MongoDB for backend data storage.
- The platform is designed to help individuals who find it difficult to go outside by offering home-based workout plans and guidance.
- Focused on user-friendly design and accessibility to encourage a healthy lifestyle from home.

SKILLS

- Proficient in Core Java programming language.
- Well-versed in Python programming language.
- Experienced in SQL database management.
- Skilled in HTML and CSS for web development.
- Proficient in JavaScript for client-side scripting.
- Familiar with MongoDB NoSQL database.
- Knowledgeable in React for building user interfaces.
